Orangeburg, S. C.

We respectfully request our friends to send in their Advertisements as early in the week as convenient; and if possible, let us have them by Thursday evening. By this means, we will be able to issue at an earlier hour on Saturday, and will be enabled to give more of the latest news, up to the time of our going to press.

READING MATTER ON EVERY PAGE.

LOCAL ITEMS.

SATURDAY MORNING, SEPT. 7, 1867.

We Have a Garrison.
A company of the 40th Regiment U. S. C. Troops, is now quartered here.

Our First Page.
By request, we publish this week, General HAMPTON'S letter on the duties of the hour. In so doing, we have necessarily omitted our usual amount of light literature; but we trust that our readers, who delight in fiction and humor, will be willing to yield to the all-absorbing topic of the day—politics.

Our Thanks
Are returned to our worthy friend down stairs, Mr. T. C. Hubbell, for a saucer of Lima Beans, weighing—the beans, not the saucer—nine ounces. We felt like migrating to Peru, after eating them: for, like Lima, they were—capital.

Fire.
On Saturday last, the dwelling house of Rev. A. F. DICKSON was consumed by fire. At the first alarm, the engines repaired promptly to the spot; but owing to the high wind prevailing, and the headway the fire had already made, ere an alarm was given, nothing could be done, except to save the outbuildings from destruction, which duty was energetically accomplished by our gallant firemen. A burning cinder from Mr. DICKSON'S house was blown a great distance, to the roof of Captain T. A. JEFFORDS'S residence: but the timely discovery of it by passers by, and the prompt assistance of the citizens and firemen, prevented serious damage.

Mr. DICKSON'S residence was not covered by insurance, and his loss is quite serious. He has the sympathy of the entire community; and we trust this sympathy will be manifested by material assistance. Subscription lists will be found by our friends from the country in the different stores in this place, where contributions to the fund for re-building Mr. Dickson's dwelling will be received.

Deadly Weapons.
We are requested by Captain FRENCH, U. S. A. Commanding the Company at this place, to state that he feels it his duty to carry out that section of Order No. 10, forbidding the carrying of deadly weapons. He desires that this information may be generally extended, in order that none may be put to trouble on account of ignorance of the order referred to.

Registration in this District.

The Crops.
The weather has been more favorable during this week, and the Crops prosper accordingly. We have received the following from a friend at Branchville, and rejoice with him in the signs of prosperity that attracted his attention, during a brief respite from the trying scenes of commercial life:

BRANCHVILLE, S. C., Sept. 4, 1867.
MR. EDITOR:—I think it not out of place to tell you something of the trials of the merchants of B—. We have passed through a severe ordeal during the Summer months on account of the almost entire disappearance of the "Almighty Greenback" from our midst. I resolved to shake off the gloom that surrounded my drooping spirits by a visit into the country. As I waded my way along the winding roads my drooping spirits gradually revived on beholding the large fields of beautiful Cotton, Corn, Rice, &c., bidding fair to yield an abundant harvest, and amply compensate the farmer for the great drops of sweat, (by which we are all required to live), besides affording a few superfluous bushels for the merchant. My visit was of short duration; for, thinking I might lose a dime, I refreshed myself, passed a few words with my friends, and returned with renewed hopes. Yours very truly,
BOB.

Orangeburg Market.
This new Institution will commence its operations to-day. Our friends from the country will please notice the official advertisement of the Town Council, in regard to the fee of 25 cents, and the fine of \$5.00. We can say nothing as yet about the operations of this new arrangement; as experience alone can decide the vexed question of its practical utility.
